Contemporary Bathroom

Travelling through

Oasis offers so much more than a selection of furniture. Indeed, the company aims to propose a complete and coordinated interior design, inspired by an idea: the beauty of 1900. Nevertheless Oasis also looks at the decades of great Italian design and architecture to capture the secret of blending different raw materials in a new, unique and universal design.

Oasis, a story in time

1908

Floriano Quaia opens his first carpentry workshop: a small studio where furniture is made with the aim of lasting a lifetime.

1945

Bernardo Quaia, son of Floriano, sets down the foundations of a company where the first pieces of decorative furniture would later be developed.

1972

Francesco, Bernardo's son, builds a factory and creates - using his surname - an actual brand. Together with his brother Floriano, he sets up Arredamenti Quaia.

1980

Arredamenti Quaia participates in the Salone del Mobile, Milan for the very first time. The accompanying burst of innovation marks a turning point for the company which sets its sights on ever broader horizons.

1984

During the flurry of the Eighties, Francesco Quaia establishes the Oasis brand, branching out into the production of bathroom furniture which thereafter becomes part of the company offer.

2012

The Home line is completely revised and relaunched with the aim of offering, under the Oasis label, a complete and coordinated luxury interiors package inspired by the language of cosmopolitan and contemporary style.

The New Millennium

At the turn of the Millennium, an impetus of change, of fresh new ideas, sweeps through the company in the form of the next generation, Francesco's three children: Francesca, Federica and Lorenzo.

Nowadays

The company is a century-old family business characterised by courage, tradition and a strong identity. It has market presence in more than 25 countries, the main ones being: Russia, Ukraine, the United Kingdom, Germany, France, Switzerland, Belgium and the United States. The Oasis production portfolio includes a wide range of furniture collections for the Home, the Bathroom and the Contract industry for the construction of projects for both residential and professional purposes.

2013

The year sees monobrand flagship showrooms opening in both London and Hong Kong.

**The future
of italian
know-how.**

There is only one area of Italy where the air can blow in from foreign lands, that place is Friuli. And along with that wind comes history, style and certain ways of thinking. It is here that the story of Oasis began, the result of a refined and eclectic merging of different cultures, civilisations, languages and cuisines often referred to around the world as "Italian style".

Francesca Quaia

The eldest, Francesca, is the first to work alongside her father in the business. By assuming responsibility in 2001 for the commercial direction of the company, is pivotal in steering it along the road to internationalisation.

Federica Quaia

Second daughter Federica, having specialised in the worldwide branding of luxury goods, takes over all aspects of image and communication within the company in 2006, thus assuming marketing and artistic control.

Lorenzo Quaia

Third-born Lorenzo completes the transition to the fourth generation in 2008. Specialising in project research and development as well as highly technical products, he becomes head of the technical production division.

EDEN

SUCH RICH MATERIALS BRING PLEASURE TO THE SENSES.

Offering an elegant and refined aesthetic, Eden is the most recent addition to the Oasis Master Bathroom Collection.

One of its defining characteristics is a decorative band behind the drawer opening which can either harmonise or provide a visual and tactile contrast with the structure.

Modern and clean-lined, Eden comes in a wide variety of finishes from glossy, matt or metallic lacquers to porcelain stone and a multitude of real wood veneers. It is also available in glass in a choice of ribbed, glossy, satin or bronze mirror, with integrated washbasins of various shapes and materials: Purefeel, Geacril, Corian, porcelain stone and glass.

The Eden Collection is modular in design, thereby ensuring an optimal use of space within the bathroom. In addition to vanities, there are tall units, wall units, open shelf wall units and mirrors, all designed to form a coherent and sophisticated ambience.

DRESSCODE

NEW SOLUTIONS FOR A CONTEMPORARY BATHROOM

Oasis is proud to present its new Master range, designed to blend contemporary styling with an atmosphere of elegance and refinement.

With the idea of designing a model which is easy to customise but at the same time truly distinctive, we have created Dresscode, in which the blend of exclusive colours, materials and finishes is highlighted by geometric forms and 45° angles.

Unmistakably modern yet exceptionally sophisticated, Dresscode is designed to suit all bathroom types.

TECHNICAL SHEETS

FENIX TECHNICAL CHARACTERISTICS

Fenix is an innovative material created for the interior design and applied on a water repellent panel. The external surface involves the use of nanotechnology and it is characterized by next generation acrylic resins, hardened and fixed with Electron Beam Curing process.

The result is a material which is:

- MATT
- SOFT TOUCH
- ANTI-FINGERPRINTS
- WATER REPELLENT
- HYGENIC
- HIGHLY RESISTANT TO DOMESTIC SOLVENTS
- ANTI MOLD
- ABRASION AND SCRATCH RESISTANT
- REPARAIBLE IN CASE OF SMALL SCRATCHES
- EASY TO CLEAN

A soft cloth dampened with warm water is sufficient to clean Fenix.

Domestic cleaners can be used but harsh detergents, strong soaps, abrasive cleaning products and sponges are to be avoided as damage may occur.

FOREVER

FREEDOM, FUNCTIONALITY AND MINIMAL DESIGN

Oasis introduces the new Forever collection, a perfect synthesis of form and function, where modern geometries are highlighted and embellished by the addition of a slim aluminium handle.

Finish-matched to the furniture, this combines seamlessly, resulting in a clean and uniform design.

Forever adapts to any space or setting thanks to a high degree of modularity and wide selection of colours and finishes; glossy, matt or metallic.

Clients can customise their purchase yet further with a choice of integrated washbasins.

These are available in ceramic, white resin or back-lacquered glass, the latter coming in glossy or satin matt versions.
