Just like our other collections, the Discovery collection offers a wide range of customization features. The range comes in all our finishes, including our iconic Old Brass finish.

The standard crosstops can be personalized, or be replaced by levers in white, black or antique porcelain. Plenty of options for our Discovery collection to perfectly comply your interior demands.

A detailed photograph of a bathroom vanity. On the left is a large, textured stone sink. A tall, arched brass faucet stands behind it. In the foreground, a brass tray holds two pump soaps: one in a clear glass bottle with a black palm tree design, and another in a white ceramic bottle with a black palm tree design. To the right of the tray are two lit pink candles in brass holders. Further right is a vase of pink and orange roses. The background is a window with a dark frame, showing a blurred outdoor scene. The overall lighting is warm and soft.
