

www.gentry-home.com

Un ambiente ricco di storia, atmosfere di rara eleganza accompagnano e rendono memorabile la quotidianità. È l'ambizioso obiettivo che ha dato vita alle collezioni Gentry Home, una rigorosa selezione di oggetti d'arredo che si valorizzano nel tempo per l'alta qualità dei materiali, per il pregio delle lavorazioni artigianali, per l'autenticità degli stili. Dalle porcellane alle vasche in ghisa, agli accessori e complementi d'arredo, ogni proposta Gentry Home si rivela sapiente omaggio alla cura di sé, al benessere ricercato tanto nella funzione quanto nell'estetica degli oggetti.

An ambience full of history and an atmosphere of rare elegance accompany and make everyday life quite memorable. This is the ambitious objective behind the idea of the Gentry Home collections, a careful selection of furnishings whose top quality materials, prestigious craftsmanship and authenticity of style ensure valorisation over time. From porcelain items to cast iron bathtubs, from accessories to decorative furnishings, Gentry Home pays tribute to individual wellness, where the shape and functionality of the objects focus on overall well-being.

Vasche in Quarzo - *Quarzo Stone Bathtubs*

Vasca Manhattan in Quartz Stone

Il Quartz Stone è un materiale di nuova concezione che consente di realizzare prodotti ad alta prestazione tecnica ed estetica: lavorazione per fusione a corpo unico, solidità e leggerezza, straordinaria uniformità del colore con l'esclusione di microfessure, vene o altre imperfezioni. Definito come "pietra ingegnerizzata", il Quartz Stone è infatti un composto che unisce, grazie agli speciali processi di lavorazione, i vantaggi del granito e delle resine polimeriche. Non poroso ed altamente compatto, il Quartz Stone è estremamente resistente ai graffi alle macchie e alla crescita microbatterica. Più flessibile e dunque più resistente della pietra naturale, ha elevate proprietà di ritenzione del calore ed è molto facile da pulire. La raffinatezza delle finiture lo rende inoltre liscio e setoso, piacevolissimo al tatto.

Manhattan Bathtub in Quartz Stone

Quartz Stone is a new concept material that is used to create high performing technical and aesthetic products: single body casting processing, sturdy and lightweight, extraordinary colour uniformity with no microcracks, veins or other imperfections. Quartz Stone is referred to as the "engineered stone" and is a composite that undergoes special processing to combine the advantages of granite with those of polymeric resins. Its non-porous and highly compact features make Quartz Stone extremely resistant to scratches, stains and the growth of microbacteria. It is more flexible and therefore more hard-wearing than natural stone, it has high heat retention properties and is very easy to clean. The refined and stylish finish makes it wonderfully silky smooth to the touch.
